

The k23_artstudio residency program does not include any participation fee, offering free study space and accommodation lasting between 2/3 weeks.

The program supports professional development, cultural exchange and experimentation of any artistic discipline, putting artists in contact with the vibrant artistic atmosphere of Athens.

Applications can be submitted via email by contacting keramikos23@gmail.com, sending a proposal of the work you intend to carry out during your stay, photos of similar jobs, dates of stay, CV, copy of ID card and the following signed file.

The only requirements required of the artist are to leave the space in the same conditions in which he found it (washing of sheets and towels included) and the donation of a work of his choice and of the desired size for the archive of the k23_artstudio residency program, which can be inserted in future exhibitions in our exhibition space [keramikos23_artspace](#).

k23_artstudio will not cover travel, transportation, material and food expenses.
